VOLODYMYR SEMKIV

Front-end Developer

Eindhoven, The Netherlands

semkivvolodya@gmail.com

+380977901872

TECHNICAL SKILLS:

JavaScript, TypeScript, React, Redux, Bash, SQL, MongoDB, GraphQL, Material-UI, HTML5, CSS, Less, Gulp, Git, Figma, Photoshop. Fortran, Matlab, Wolfram Mathematica, Comsol.

PROJECTS:

- MySite   https://sem19.github.io/my-site/
- Fitness   https://sem19.github.io/fitnes/
- Portfolio   https://sem19.github.io/Portfolio/
- Funiro   Website for the sale of furniture
- Shelter for pets   A small application to help animals via finding houses for them
- SoCoders   https://dev.socoders.com/

  We are building a project for the IT engineering community. That is, we strive to become an organization-club of engineers, for mutual assistance in maintaining skills in a market-relevant state and improving qualifications, cooperation on mutual projects, exchange of experience, assistance in the implementation of ideas and projects. We are building our app to serve all of this. A lot of functionality is still not implemented, that is, we are in the very early stages.

WORK EXPERIENCE:

SoCoders   08/2021 – present
Front-End Engineer

INTERNSHIP:

University of Groningen   09/2019 – 10.2019
Thesis: "Vibration of circular membranes with heavy disks inside"

Ye. O. Paton Electric Welding Institute   01/2019 – 02.2019
Thesis: "Electronic broadcasting and spectroscopy methods in diagnostics of metallic constructions "

EDUCATION:

Main Academy   02/2021 – 06/2021
Course "Front-End Development"

Taras Shevchenko National University of Kyiv, Ukraine   09/2017 – 07/2019
M.Sc., Theoretical and Applied Mechanics
Thesis: "Reflection of Coriolis dispersed plane waves on an elastic half-media"

Taras Shevchenko National University of Kyiv, Ukraine   09/2013 – 07/2017
B.Sc., Theoretical and Applied Mechanics
Taras Shevchenko National University of Kyiv, Ukraine
Thesis: "Perturbation Method in calculation of deformed state of varying thicknesses plates"

LANGUAGES:

English, Ukrainian, Russian
